NATURE ESSENTIALS

JTB COLOUR TRENDS

Nature is an endless source of inspiration, and the trends of "Nature Essentials" bring this natural beauty directly to your table setting.

With "Nature Essentials," we embrace subtle tones and textures found in nature, from stunning earthy hues to calming white.

Fresh ingredients look beautiful on tableware that mimics the natural world, and green is now an immensely popular choice for tableware.

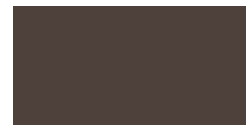

Enhance the green color even further by combining it with the other beautiful earth tones.
